A Score You Will Actually Understand

Your Challenge	AgileBlue's Solution
You aren't sure what goes into your cyber risk score.	We go a step further to help you understand your cyber risk score by identifying trends and key factors, we continuously monitor your score to stay alert of changes.
You don't know what your cyber risk score is monitoring.	We keep things 100% transparent. Your score includes monitoring of all devices, applications, networks, cloud, criticality of alerts, behavioral anomalies, best practices, CVEs and numerous other inputs.
Your organization struggles with monitoring, detecting, preventing and responding to threats.	We understand it is not the number of alerts or vulnerabilities measured that is important. What matters most is what those measurements say about your organization's capabilities and behaviors.
You want to access your cyber risks in one easy to use place.	Our data is ready to go, complete with actions you can take to lower your Risk Score, all in one easy-access online dashboard.
You're not sure what to do if a threat occurs when you're unavailable.	We're here 24/7 to monitor and detect cyber threats. If there's an incident, we're with you until the job is done, and then some.
