

# Public Transportation (PT), Over the Road Bus (OTRB), & Surface Transportation (ST) Information Sharing and Analysis Centers (ISACs)

Todd Steinmetz

PT, OTRB & ST ISACs Director

# What are the ST, PT, & OTRB ISACs?

- Clearinghouses for information on physical and cyber threats, vulnerabilities and solutions.
- Efficient means of receiving/communicating incidents, threats, and alerts.
- Secure means of sharing security information – anonymously or in an attributable manner.
- Security Technology Center provides a one-of-a-kind resource to the industry.

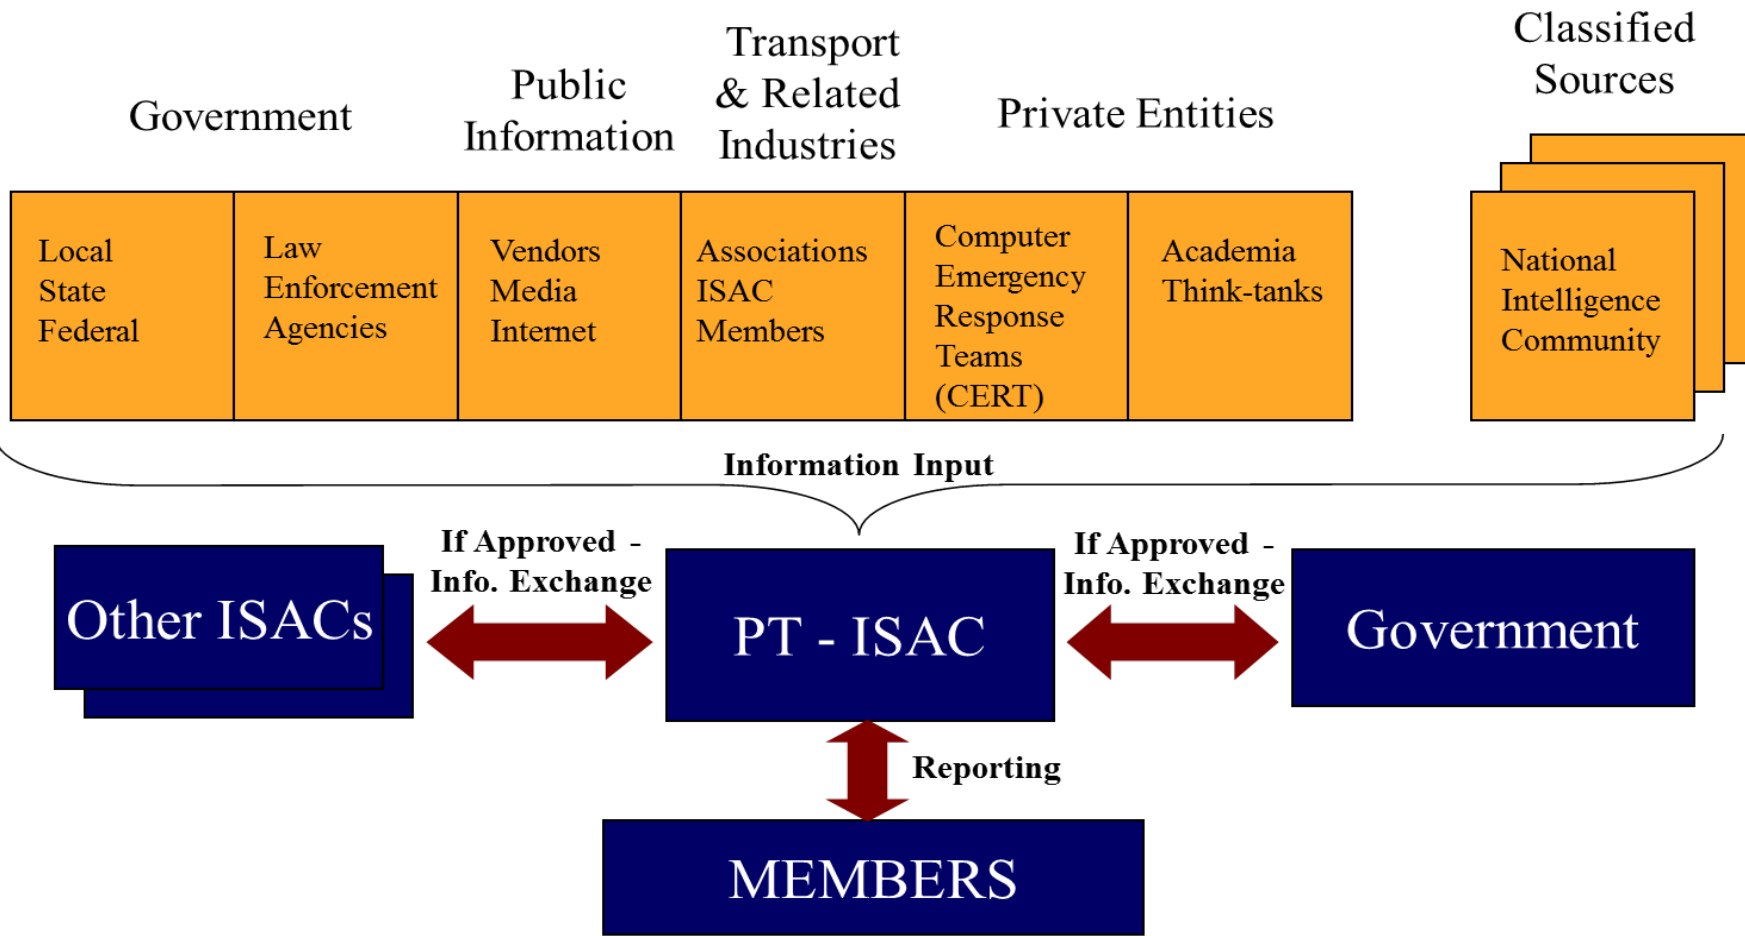

# ISAC Services

- 24/7 threat warning and incident reporting
- Security/antiterrorism expertise
- Independent research and original analysis
- Incident response support
- Secure, encrypted, and redundant communications
- Access to:
  - Unique intelligence sources not normally available
  - U.S. and foreign governments/International forums
  - National and International Computer Emergency Response Teams
  - Law enforcement entities

# Products

- **Daily Reports:**
  - Transit and Rail Intelligence Awareness Daily (TRIAD) Report
  - Over the Road Bus Daily Report
  - Daily Open-Source Cyber Report
- **Priority and Situational Awareness Messages**
- **Periodic Special Reporting:**
  - Threat Assessments
  - Analysis of Major Incidents and Events
  - In-Depth Special Reports
  - Concise Security Awareness Bulletins
